Great Activity Noted in the Whole American

Area

With the American Army in France. Saturday, March 30 (By the Associated Press) .- All the American troops hav been turned over to the allies for such use as they see fit to make of them. The American troops may soon be fighting side by side with the British and French affies in the battle now raging in northern France. It is enough to say that great activity of many sorts is in progress in the entire American zone.

CLIMBER MOUNT BLANC ALONE.

Late Rev. A. S. W. Young Was One of Three Brothers to Perform Feat.

London, April I-Rev. A. S. W. Young, who has just died at his home on the Thames, was the last survivor of three brothers who won the attention of the world in 1866 by making the first ascent of Mount Blane without a guide. On their return journey they fell 2,000 feet over a precipice, one of them being killed but the other two escaping practically

The three brothers Young, athletes and experienced mountaineers, announced their intention of climbing Mount Blanc at the most dangerous season of the year. All endeavors to dissuade them failed, and in view of the great danger of the enterprise the main streets of Chamonix were thronged with specta tors and telescopes were much in de-

Towards 11 o'clock the three brothers were discerned looking like pygmies far up on the loftiest terrace of the Grand plateau, climbing with remarkable vigor. They disappeared in the "Corridor" and were lost to view for an hour, when they reappeared and were seen standing to gether on the extreme summit of Mount Blanc. They remained there for a few minutes and then communeced the des

"BLOOD AND IRON"

A Combination That Makes for Better Health This Spring.

Every man and woman who would enjoy good health this spring, and would have such life and strength as not to be a slacker, but equal to anything, must have an abundance of iron in the blood. The new iron tonic, Peptiron, combines this valuable metal in medicinal form so that it is easily absorbed and readily assimilated.

Peptiron also includes pepsin, nux, celery, gentian and other tonics,—nerve helps, digestives and carminatives—a health-giving medicine in the form of chocolate-coated pills, convenient and pleasant to take. It has given entire satisfaction in cases of anemia or thin blood, paleness, nerve debility, brain meal will quickly tell a story of marvellous results.

ORDER WAGE RAISE IN PACKING HOUSES

Employes Get Nearly All They Asked For-Eight-Hour Day Decided Upon.

Chicago, April 1 .- The eight-hour day, wage increases and equal pay for like work by men and women were granted to Chicago packing house employes Saturday by Judge Samuel Alschuler, arbitrator in the recent wage hearings here. The award provides that overtime shall be paid for at the rate of double time for all Sundays and holidays. Provisions may be made for relief workers so as to give the regular employes a day

Piece workers are to receive a propor tionate percentage increase and in all cases the compensation of the new eighthour day will at least equal that formerly paid for 10 hours work.

The arbitrator also handed down a form of working agreement which provides for hearing of grievances. Employes may not be discharged because of trades union membership of activities not carried on at the plants.

Except for the amount of the wage in the employes won practically every point for which they lemand had been a flat increase of \$1 a day, whereas the award works out increases ranging from 40 to 50 cents a day on the basis of the old 10-hour day.

Leaders of both sides said they were satisfied with the findings.

the sale of war savings stamps show that the people of Massachusetts have not yet taken hold of this enterprise with so much enthusiasm as the citi-zens of certain other states. This is not due to any fault of the Bay state director, Mr. Robert F. Herrick, nor to the organization which has been built up to bring this duty to the attention of all the people. Before he gets through we are entirely confident that he will produce results.

The government asks each person to subscribe for \$20 of savings certificates during the current year. This means a saving equal to only two postage stamps a day. With the usual habit of procrastination, the individual often thinks he will wait until he has \$20 saved up, and lowed during middle and last days of then lend this amount to the govern-week by generally fair weather and ment, whereas if he attended to it each somewhat lower temperatures. day or each week the amount would grow gradually without any special effort on his part.

The American Trust company of this city, with its characteristic alertness, has organized its employes with the idea that by encouraging rivalry among them it can bring the desired result to pass. One of the speakers from the thrift savings stamps committee addressed them one afternoon a short time

ago explaining the situation. As a result of this talk fourteen teams have been formed, composed of eight per-sons each, and they are now in active competition to produce results. The women employed by the company have one team of their own. This shows how one organization by systematic effort, expects to produce results. Other con cerns may evolve conceivably better plans, but this is surely worth trying. Massachusetts, which has furnished so many men and provided the army and navy with so much in the shape of supplies, should lead the country in the capita contribution to this work. When the people of this state are fully roused to the situation, we feel sure

they will do so.

The new system was first introduced in military establishments for convalescent soldiers, originating in the desire to find a method of writing which could be quickly learned by soldiers who had lost the use of their right hand. Its advocates claim that the "print" writing is How One Bank Helps on War Savings.
